Convenient and cost-effective training

Take advantage of our convenient and cost-effective Online Cognos Training — learn from your home or office and get personalized training through our easy-to-use, remote online training classroom, taught by our Cognos certified instructors.

Online Training Course Catalog

PerformanceG2 offers a wide-variety of Cognos 10 online training courses. Each course includes access to the Cognos environment for up to a month after the course ends, as well as a PDF of course materials.

Cognos Framework Manager Course - $995

PerformanceG2's Cognos Metadata Modeling with Framework Manager two-day course provides participants with the knowledge on how to model metadata with Framework Manager using Cognos modeling recommendations as a modeling strategy.

Cognos Report Studio Course - $795

PerformanceG2's two-day Report Studio Course starts with an introduction to Cognos Connection, report management through Cognos Connection, basic and intermediate report building techniques, and ways of enhancing, customizing and managing professional reports in Report Studio.

Cognos Dimensional Reporting with Cognos Report Studio - $595

The one-day Dimensional Reporting with Report Studio course is designed for professional report writers who need to build reports in Report Studio using dimensional data sources (OLAP cubes, DMR/OOR sources, Dynamic Cubes). The course introduces dimensional reporting concepts and continues to build on that knowledge creating complex and efficient dimensional reports.

Cognos Active Reports with Cognos Report Studio - $595

Creating Active Reports with IBM Cognos Report Studio is a course in which students use active report controls to build interactive reporting applications. Topics in the course includes: converting to Active Reports, working with Active Reports controls and variable, using RAVE Visualizations in Active Reports, and creating simple or complex Active Reports. The course also includes discussions on best practices for building Active Reports for mobile.

Cognos Workspace Advanced - Dimensional - $595 / Cognos Workspace Advanced - Relational - $595

The Cognos Workspace Advanced courses are designed to allow business users to create simple reports and analyze their data. In these courses, you will learn how to create reports with relational and dimensional data sources using lists, cross tabs and charts. You will also learn how to add those reports to sophisticated interactive dashboards to facilitate decision-making.

Cognos OLAP Modeling with Transformer - $995

PerformanceG2's Cognos OLAP Modeling with Transformer two-day course provides participants with the knowledge of OLAP modeling concepts using Transformer. You will learn how to design, build, and maintain PowerCubes for use in Cognos Business Intelligence, so that the end-users can easily analyze.

Cognos Query Studio / Analysis Studio- $795

The Cognos Query Studio and Analysis Studio two-day course is designed for business authors who want to learn how to create, modify and organize ad hoc reports and OLAP dimensional reports. The course covers how to use different report capabilities and the appropriate use of each, how to graphically display the data, and how to create reports with the same look and feel through the use of templates.

Cognos 10 - What's New - $595

The Cognos 10 - What's New one-day course will introduce you to the new features of Cognos 10. The course will highlight new abilities in Cognos 10, will explain the difference between Cognos 8 and Cognos 10, and will review the new self-servicing features of Cognos 10, plus explain the upgrade process.

Cognos Workspace- $595

The one-day Cognos Workspace course is designed to allow business users to create dashboards to analyze their data. In this course, you will learn how to add existing reports and report objects to sophisticated interactive dashboards to facilitate decision-making.

Cognos TM1 Developers - $1195

PerformanceG2's Cognos TM1 Developer two-day course is designed to teach application developers how to set up a complete TM1 applications. During this course, you will learn how to create a TM1 server, create and modify dimensions, and create cubes and cube views.

Cognos TM1 Analysts- $795

The two-day Cognos TM1 for Analysts course is designed to teach business and financial analysts how to analyze and report on their organization's data. During this course, you will learn about cubes and cube terminology, how to focus you analysis using cubes and subsets, and how to analyze and contribute TM1 data from within Excel.

Cognos TM1 Administration - $795

PerformanceG2's one-day Cognos TM1 Administration course is designed for Cognos Administrators. The course will focus on installing and administering the TM1 environment. Topics covered include: TM1 architecture, installing and configuring TM1, monitoring TM1 for performance, managing the TM1 server, replication and more.
